GUIDEPOINT SECURITY
GOVERNMENT SOLUTIONS

Our Mission: Smarter cybersecurity decisions. Less risk.

When it Comes to Cybersecurity, One Size Does NOT Fit All

Each customer environment is different. Your needs, gaps, skillsets and risks are also unique. We work with you to understand your business and challenges, and evaluate your cybersecurity posture and ecosystem to provide tailored recommendations that deliver your desired security outcomes.

GuidePoint Security provides trusted cybersecurity expertise, solutions and services that help organizations make better decisions and minimize risk. By taking a holistic approach for evaluating cybersecurity architecture and processes, GuidePoint enables the nation's top organizations, such as the DoD, IC, Civilian agencies, and private companies, to identify risk, optimize resources and create integrated solutions that mitigate risk.

Our comprehensive approach helps you make smarter decisions about cybersecurity risk.

Identify Risk
- Assess existing cybersecurity posture and architecture
- Identify security gaps within the enterprise
- Integrate solutions to build a comprehensive cybersecurity ecosystem

Optimize Resources
- Reduce employee cyber fatigue with automation
- Create cyber integrated solutions that work
- Reduce the time from procurement to deployment

Create Integrated Solutions
- Identify emerging technology that works
- Minimize security gaps by creating world class solutions
- Build best of breed capabilities

Put an ELITE Team of Cybersecurity Practitioners on Your Side

More than 70% of our workforce consists of tenured cybersecurity architects, consultants, engineers and operators.

Four Pillars of Offering

Solutions Provider

Federal Systems Integrator

Managed Services

Consulting
