

Strategic Approach to Ensuring a Stronger Cybersecurity Posture

Traditional security is fragmented, giving attackers gaps to exploit.

To ensure continuous security and minimize your risk, you must change the approach. GPVUE delivers a strategic, programmatic cybersecurity approach that goes beyond individual solutions and services to give you a more mature security program and posture.

Gain an **Effective and Sustainable** Cybersecurity Program

GPVUE leverages our expertise across a wide range of cybersecurity disciplines to provide an integrated program that is designed specifically to meet your unique needs. We work with you to:

- Understand your unique environment, challenges, requirements and new initiatives
- Tailor a program that continuously reviews and analyzes your environment over the course of a year, identifying security gaps, providing recommendations and implementing remediations
- Deliver actionable reporting to your security team and board

GPVUE enables you to understand your security posture at all times and benefit from a cybersecurity program that scales to your unique requirements.

Put an **ELITE** Team of Cybersecurity Practitioners on Your Side

Our highly-certified, operational cybersecurity experts have lived and breathed your job.

- More than **70%** of our workforce consists of tenured cybersecurity engineers, architects and consultants
- Many have managed security within the DoD and U.S. intelligence agencies and **Fortune 500 companies**

Hundreds of Industry and Product Certifications
