GUIDEPOINT® SECURITY

Leverage our cloud security experts to design and build your FedRAMP program for modern architecture

Ensuring your cloud applications meet FedRAMP compliance requires expertise and time many organizations don't have
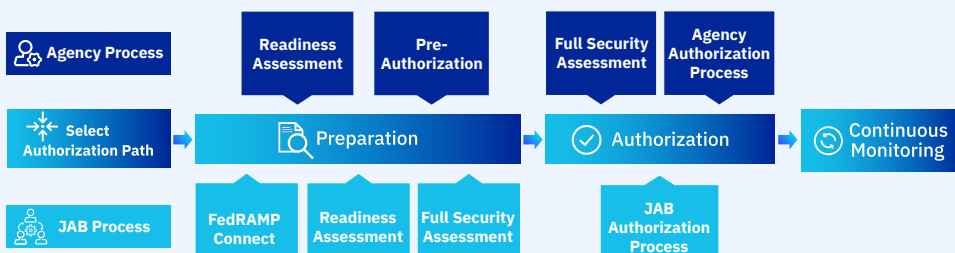

Our expert team is ready to step into your organization and work with you to design, build, evaluate, document, and test your Cloud Service Offerings in preparation for FedRAMP certification. Once complete, we ensure a smooth transfer of responsibility for your FedRAMP progrwam management.

Since the introduction of the FedRAMP program, the need for cloud-hosted applications and tools has only grown, and the ongoing shortage of security practitioners has left a gap for many organizations trying to build certified Cloud Service Offerings (CSO).

GuidePoint Security has a diverse background of FedRAMP expertise to help you design and build your FedRAMP program. Our subject matter experts will work with your chosen partners and vendors to:

- ⊘ Analyze your cloud environment and existing documentation
- ⊘ Create a roadmap for your FedRAMP authorization process
- ⊘ Document your implementations and create all the necessary attachments for review, test your policies and processes to build the Authorization to Operate package
- ⊘ Transfer knowledge and responsibility to your team for ongoing maintenance and support

GuidePoint Security is your trusted partner throughout the FedRAMP and StateRAMP process

Agency Process	**Readiness Assessment**	**Pre-Authorization**	**Full Security Assessment**	**Agency Authorization Process**	
Select Authorization Path	**Preparation**		**Authorization**		**Continuous Monitoring**
JAB Process	**FedRAMP Connect**	**Readiness Assessment** / **Full Security Assessment**	**JAB Authorization Process**		

Note: Readiness Assessment is required for the JAB process and is optional but highly recommended for the Agency Process.
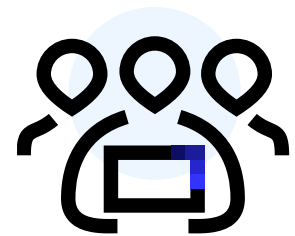

Put a Highly-Trained, **ELITE** Team on Your Side

More than 70% of our workforce consists of tenured cybersecurity engineers, architects and consultants.

## Hundreds of Industry and Product Certifications

Ensure your Cloud Service Offering is ready to meet all standards and comply with FedRAMP requirements

Our FedRAMP Advisory Services will ensure that your CSO is compliant with FedRAMP requirements from the beginning. Our expert Cloud Security and Governance, Risk, and Compliance teams will work with you to design and build a final product that meets your project needs and receives certification.

With our FedRAMP Advisory Services, you will receive:

- Review of all existing FedRAMP artifacts and documentation relevant to your project
- Full gap analysis and roadmap to define project scope and timeline
- Artifact and documentation development to address existing gaps
- Cloud design and engineering to develop and build your CSO
- A domain-specific SME to guide the process and address concerns
- A cloud platform SME to ensure your CSO is built to utilize your chosen platform to its full capabilities

PHASE ONE
Onboarding
- Stakeholder Identification
- Document Exchange Plan
- Identify High- Level Timeline
- Project Plan Set Up
- Access Requirements

PHASE THREE
Documentation
- Create System Security Plan
- Create Diagrams (as needed)
- **Create all required Attachments**

PHASE FIVE
Transfer of Responsibility
- Knowledge Transfer
- Response Training

PHASE TWO
Analysis
- Documentation Review
- Environmental Assessment
- Identify NIST Controls
- Create Roadmap

PHASE FOUR
Testing
- Conduct testing of policies and processes
- Quality Assurance of Package

About Us

GuidePoint Security provides trusted cybersecurity expertise, solutions and services to help organizations make better decisions that minimize risk. GuidePoint's unmatched expertise has enabled a third of Fortune 500 companies and more than half of the U.S. government cabinet level agencies to improve their security posture and reduce risk.
