

Innovate and Deliver on Your Cloud Strategy with AWS Marketplace and GuidePoint Security

Simplify Procurement of Cybersecurity Software and Services

As organizations migrate to the cloud, they want to use their preferred software solutions on AWS. With professional services from GuidePoint Security available in AWS Marketplace, customers have a simplified way to purchase and be billed for both software and related cybersecurity services in a centralized place.

Your Trusted Advisor

GuidePoint Security is one of the first AWS Consulting Partners to quote and contract cybersecurity services in AWS Marketplace to help you implement, support, manage and secure your software on AWS.

When it comes to cybersecurity and the cloud, there is no one-size-fits-all approach. As your trusted advisor, we work to understand your business and environment to recommend tailored solutions specific to your needs.

Expose potential risk

- Assess existing cybersecurity posture and architecture
- Identify gaps + vulnerabilities
- Eliminate solutions that don't work well together

Align + optimize resources

- Validate regulatory compliance + adherence with best practices
- Align solutions to in-house capacity

Integrate best-fit solutions

- Review, analyze, compare + vet current and emerging technology
- Recommend products, tools + controls that minimize risk
- Integrate + optimize best-fit solutions

Put an **ELITE** Team of Cybersecurity Practitioners on Your Side

Our highly certified, AWS-authorized cybersecurity experts have lived and breathed your job.

- More than 70% of our workforce consists of tenured cybersecurity engineers, architects and consultants
- Many have managed security within the DoD and U.S. intelligence agencies and Fortune 500 companies

Hundreds of Industry and Product Certifications
